

MSS®-DİONE Sanalkali

Hygiene İn Sanitary Areas

Features

Acid- and chlorine-free cleaner for all sanitary areas. Removes remains of chalk and chalk soap as well as grease and oil which accumulate daily. Surfaces treated with Dione Sanalkali are water- and dirt repellent. Dione Sanalkali leaves a pleasant, fresh fragrance. Can be highly recommended for all objects in sanitary areas. Sanikal is recommended by manufacturers of sanitary fittings. Contains more than 90%-biodegradable surfactants - well within legal requirements.

Ingredients

Anionic surfactant <%5, nonionic surfactant <%5, water soluble solvent <%5, complexing agent, maintenance substances, additive, fragrance and dye.

Applications

Bath and shower tubs, wash-basins, washing troughs, fittings, toilet bowls, partition walls with frames, tiles made from enamel, ceramic, aluminium, brass, chrome, stainless steel, synthetic material or varnish. Not suitable for surfaces containing calcium such as marble.

Directions

Routine cleaning using the wet mopping system:
Dilute 200 ml in 8 litres of cold water.

Surface cleaning: Apply undiluted or dilute not more than 100 ml in 4 litres of cold water. Spray Dione Sanalkali or the cleaning solution onto the surface and treat with wet sponge or cloth, then rinse thoroughly with clear water. Use a toilet brush for cleaning toilets.

Foam cleaning: Pour Dione Sanalkali undiluted into the tank, depending on the chalk deposits choose the ration 1:5 or 1:10. Apply foam to the surface, allow to act for about 10 minutes, rinse thoroughly with clear water.
