

MSS®-HEMERA Ceramix

Cleaner for Ceramics Tiles

Features

Highly alkaline special cleaner for fired and moulded porcelain tiles. Very effective, suspends dirt, dissolves the dirt from the pores, thus especially suitable for cleaning of rough, microporous tiled surfaces. The dirt which lies in the pores of the surface is penetrated by the cleaning solution and flushed out by scrubbing. Removes also daily dirt. Can also be used for stripping of very dirty concrete floors. Contains more than 90%-biodegradable surfactants - well within legal requirements.

Ingredients

Anionic surfactant <5%, nonionic surfactant <5%, complexing agent <5%, solubilizer, alkali.

Applications

Suitable for all alkali and waterproof tiled floors with smooth, rough or microporous surfaces such as porcelain tiles, security tiles, bricks inside and out. Can be used for stripping of very dirty concrete floors.

Not suitable for linoleum, rubber, natural and artificial stone floors containing calcium such as square concrete stone, agglomerate tiles and marble! Adjoining surfaces must be protected!

Directions

Routine cleaning with wet mopping system or scrubber drier: Dilute 80-300 ml in 8 litres of cold water, depending of the level of dirt.

Stripping

Rotary floor machine with pad and wet vacuum cleaner or scrubber drier. Dilute 400 - 800 ml in 8 litres of cold water, depending of the level of dirt. Distribute 8 - 9 litres of the cleaning solution on about 25 m² of the floor surface, using the scrubber drier, pull up its vacuum unit. Leave for a short while, then scrub. Rinse thoroughly with clear water. In case of considerable foam formation in the dirty water tank, add defoamer.
