

# MSS®-HEMERA Metalshine

## Metal Care

### Features

Hemera Metalshine is a special product, free of acids and alkalis which is applied in concentrated form. Effortlessly removes stubborn soil, leaving a protective film, which does not harden even after a long period of time. Therefore, repeated applications do not lead to an excessive accumulation of protective layers. Always maintain treated surfaces with Hemera Metalshine! Contains more than 90%-biodegradable surfactants - well within legal requirements.

### Ingredients

Wax oils, nonionic surfactant < %5, water insoluble solvents.

### Applications

For cleaning and maintenance of metal surfaces (indoors) made from stainless steel, aluminium and anodised aluminium. Also for maintenance of slate wall panelling which is indoors. Effortlessly removes fingerprints and other dirt on metal surfaces

### Directions

Spray sparingly onto a dry cloth and wipe the metal surface.
