

MSS®-HEMERA Stripper-L

Special Stripper (Linoleum and Delicate Floors)

Features

Intensive cleaning, low-foaming stripper, especially suitable for alkali sensitive floor coverings. Removes maintenance products and films, wax and polymer coatings as well as grease and oil. Contains more than 90%-biodegradable surfactants - well within legal requirements.

Ingredients

Nonionic surfactant, potash soft soap, complexing agent, water soluble solvents, solubilizer, fragrance and dye.

Applications

Suitable for all water and alkali-resistant as well as alkali-sensitive floor coverings such as linoleum, rubber, synthetic rubber, PVC, polyolefin, natural and artificial stone. Removes separating agents films on rubber, synthetic rubber, PVC and polyolefin coverings. If it is not possible to find out the exact type and quality of the floor covering, we recommend the product is tested on an inconspicuous spot to see if the covering is colourfast.

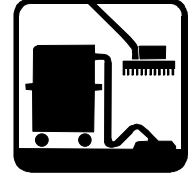

Directions

Dilute 1-3 litres in 8 litres of cold water, depending of the level of dirt and coating thickness. Distribute the cleaning solution on the floor, allow to act for approx. 10-15 minutes, scrub, add warm water via the solution tank if necessary, vacuum, rinse thoroughly with clear water. MSS Group accept no responsibility for damage resulting from improper use or application of the product.
