

MSS®-TABNAK Sensitive

Maintenance Cleaner

Features

Effective for surface cleaning, does not contain soap or waxes. Mild to the skin, leaving a pleasant fresh fragrance. Leaves surfactants and high-molecular maintenance substances on the floor which are renewed with each cleaning process and therefore does not lead to an excessive build-up of the coating. Sensitive dries without leaving marks and provides a non-slip surface. Preserves the gloss of the surfaces. Contains more than 90%-biodegradable surfactants – well within legal requirements.

Ingredients

Nonionic surfactant <math><10\%</math>, water soluble solvent, maintenance substance, additive, dye and fragrance.

Applications

Can be used on water-resistant floor coverings. Especially suitable for glossy surfaces which have been coated with wax emulsion or metal polish as well as sealed or polished natural or artificial stone.

Also suitable for sealed parquet and laminate floors, provided that they are cleaned with only a damp mop or gauze cloth.

Directions

Routine cleaning with wet or damp mopping system, wet mopping by machine:

Non coated surfaces: 80 – 160 ml in 8 litres of cold water.

Coated surfaces: 50 – 80 ml in 8 litres of cold water.

The gloss effect will be optimised through polishing (150 - 1000 r.p.m.).
