

MSS® -KREON Nutoxol

Cleaner and Disinfectant for Kitchen Surfaces

Characteristics:

Kitchens are the places where heat, humidity, and food stuffs meet. Therefore, such places become ideal places for microorganisms that endanger human health, to reproduce. It is not enough to remove microorganisms from the environment by applying ordinary cleaning chemicals. Nutoxol is not only destroy, bacterium (salmonella, E-coli, staphilocock), fungus or other pathogenic factors that cause diseases and food poisoning by reproducing in kitchens but also it prevents their reproduction again. Besides its effective cleaning power Nutoxol also disinfects surfaces as a result it reduces contamination risks. It can also be used in sanitary areas confidently. It is appropriate to apply Nutoxol on every kind of washable surfaces made up of stone, plastic, and glass. Surfactants in its composition are biodegradable. Nutoxol does not contain formaldehyde. It is an environmentally friendly product.

Composition

Contains anti-microbic substance (Dedocyl dimethyl ammonium chloride) %5–10, nonionic surfactant %5–10, complex builder <%5, and dye.

Physical Characteristics: Pink transparent liquid.

Directions and Dosage

Clean the surfaces and equipments which are going to be disinfected and wipe these areas with Nutoxol prepared in proposed concentration. Cleaning with Nutoxol is carried out with wet wiping method. Using any other pre-cleaning chemicals is not needed. Both cleaning and disinfection power of Nutoxol is very high. Surfaces cleaned and disinfected with Nutoxol shouldn't be rinsed. However, the surfaces having direct contact with food stuffs, should be rinsed with water before using.

Heavy Soil and Fast Disinfection (g/l)	Normal Soil and Disinfection (g/l)
40	30
