

MSS® -KREON Plug AL

Drain Opener

Features

It is an alkaline product that easily removes blockages in kitchen and bathroom drain pipes. It opens blockages formed by the accumulation of various dirt, oils, hair and plaster residues in the drain pipes of sinks, bathrooms, bidets, sinks and toilets by chemical dissolution. It does not cause any damage even to PVC and plastic plumbing drain pipes. When used regularly, it removes unwanted odors created by the accumulations.

Composition: Alkaline 100%

Physical Properties: White Granule

Usage and Amount

It is poured directly into clogged drains as a concentrate. Hot water is poured on it to open the blockage. It is applied again if necessary. After application, 2-3 liters of clear water is poured into the drain. Gloves and glasses should be used during use and the steam released should not be inhaled directly.

Recommended usage amount: It is used as a concentrate.

Storage

It should be stored in a cool and dry environment. It should not be stacked more than two cans on top of each other.
