

MSS®-FERONIA Clor-L

Chlorine Bleach Liquid

Characteristics

Feronia Clor-L can be used in every type of industrial washing machines. Powdered organic substances in its content provides active chlorine, therefore, Feronia Clor-L has a safe bleaching and stain removing characteristic. It is not recommended for colored fabrics. However, Feronia Clor-L can be used for fabrics that have chlorine resistant colors (after testing on a hidden part of fabric). It can be used with main washing products. Feronia Clor-L is very economical and effective against microorganisms. It provides hygiene. It is effective in every temperature. It is appropriate especially for white laundries made up of cotton.

Composition

Sodiumhypoclorid içerir %20-40.

Physical Characteristics: White fluid powder.

Directions and Dosage

It is used for bleaching and removing stains on fabrics made up of cotton or fiber mixture. It can damage sizing of synthetic fabrics and turn them yellow in color. Using Feronia Clor-L in excess amount at high temperature can cause wearing out of fabric. When Sirene-Chlorine is used as a subsidiary agent next to main washing product Feronia Clor L, it should be added in to washing water after a few minutes later so as to optical brightener become effective. After using Feronia Clor-L, laundry should be rinsed very well. It should be kept away from acidic materials.

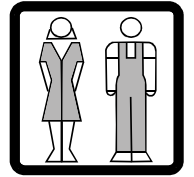

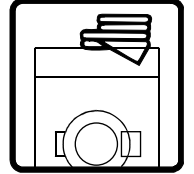

Storage

Store it in a cool and dry place (keep it tightly closed). Do not stack more than five buckets on top of each other.
