

MSS®-FERONIA OL

Oxygen Bleach and Stain Remover Liquid Auxiliary Washing Agent

Features

It is suitable for use in all types of industrial washing machines. It has safe bleaching and stain removal properties with the active oxygen it contains. It shows optimum bleaching effect at washing water temperatures above 45 °C. It is safely used in removing and whitening difficult stains in all types of textiles, white and colored, cotton, synthetic and cotton-synthetic mixed fibers. It is recommended to use it after the color fastness control (should be tested in an inconspicuous place of the textile) is tested in colored laundry. It can also be used with the main washing agent. It is effective against microorganisms and provides hygiene. It is economical. It is suitable for environmental health.

Composition: Contains active oxygen compound.

Usage Method and Amount

It is effective at water temperatures above 45 °C. It can be used in pre-washing or with a main washing agent such as Feronia Simple or alone after washing. Pour Feronia OL directly on stubborn stains before washing, wait for 4-5 minutes and wash in the machine, you will see that the stains disappear.

Two types of dosage forms are given;

1. According to dry laundry: g/kg (flot ratio 1/5)
2. According to washing water: g/l

Washing Water Temperature (°C)	g/kg	g/l
≥ 45	10 - 30	2 - 6

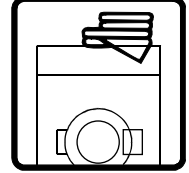

Storage

Store in a cool and dry environment. Do not stack more than two cans on top of each other.
