

MSS®-FERONIA Oxi

Oxygen Bleach Powder

Characteristics

Feronia Oxi can be used in every type of industrial washing machines. Due to its active oxygen content, Feronia Oxi has a safe bleaching and stain removing characteristic. Its bleaching effect is optimum over 60°C. Sirene-Oxygen can be used in washing process of colored and white fabrics made up of cotton, synthetic, cotton&synthetic mixture fibers confidently. Before using the product for colored laundry, test colorfastness on a small, hidden part of the fabric. It can be used together with main washing components. Feronia Oxi is effective against microorganisms, and provides hygiene. It is economical and environmentally friendly.

Composition

Feronia Oxi contains active oxygen compound.

Physical Characteristics

White fluid powder. Density, 550± 50g/

Directions and Dosage

It is effective especially above 60°C. It can be used in pre-washing program or used together with main washing components such as, Feronia Oxi or it can be used alone after washing process.

Two methods of dosage are given:

1. According to weight of dry laundry : g/kg (float ratio 1/5)
2. According to washing water: g/l

Temperature of Washing Water (°C)	g/kg	g/l
≥60	5-15	1-3

Storage

Store it in a cool and dry place (keep it tightly closed). Do not stack more than five buckets on top of each other.

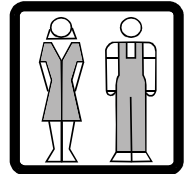

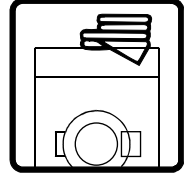

Safety Data

Read using instructions. Rinse laundry well after wash. Avoid contacts of hand with the detergent for a long time. Do not use it for cleaning hands, face, and body or food stuff. Keep it away from children.
