

MSS®-FERONIA Protein

Protein and Blood Stain Remover

Characteristics

Feronia Protein is used to clean stains fixed on the fabric such as blood, milk, cocoa, egg, body dirt, meat sauces by the help of enzyme in its content. . Before using the product for colored and delicate laundry, test colorfastness on a small hidden part of the fabric.

Composition

Nonionic surface active component, complex forming agent, >%5 enzyme and alkali maker.

Physical Characteristics: White fluid powder.

Directions and Dosage

According to the intensity of the stains prepare a solution with hot water (5-10gr/l). Stained textile should be kept 5–12 hours in 50–55 °C water. After application of Feronia Protein, textile should be washed in a normal wash process.

Storage

Store in a cool and dry place with tightly closed. Do not stack more than five boxes on top of each other.

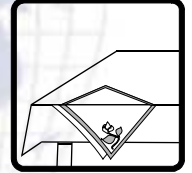

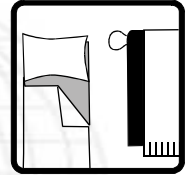

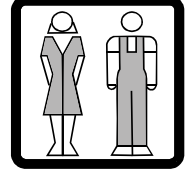

Safety Data

Read using instructions. Rinse laundry well after wash. Avoid contacts of hand with the detergent for a long time. Do not use it for cleaning hands, face, and body or food stuff. Do not mix it with other chemicals. Keep it away from children. Use hand gloves while washing. In case of contact with eyes wash with large quantities of water and seek medical attention.
