

MSS®-FERONIA Simple

Main Washing Detergent without Bleach (Colormatic)

Characteristics

Feronia Simple can be used in every type of industrial washing machines. It can be used for washing every kind of textile materials made of cotton, synthetic, and cotton&synthetic mixture fibers. It does not contain bleaching agent, therefore, it can be used for colored laundry confidently. It is effective in every temperature. Laundries washed with Feronia Simple in a suitable program and proposed dosages, keep their qualities for a long time. Feronia Simple prevents fabric to get wear out. It also prevents fabric to get gray and harden because of lime. It is economical and environmentally-friendly. Its active agents are fully biodegradable. It does not cause any problems for biological refinement systems.

Composition

Anionic, and nonionic surfactants, phosphate, foam controller, corrosion preventive, anti graying agent, optical brightener, alkaline builder, complex builder and perfume. Do not contain any filling materials.

Physical Characteristics: White fluid powder with green beads.

Directions and Dosage:

In automatic washing machines, use Feronia Simple according to proposed dosage. The amount of dosage can be increased for heavily soiled and stained laundry items (laundries of restaurant, kitchen, hospital, and factory). Soil and stain removers like Feronia Fat&Oil, and Feronia Alkali and bleaching products like Feronia-Clor and Feronia-Oxi can be used together with Feronia Simple to provide effective cleaning.

Two methods of dosage are given:

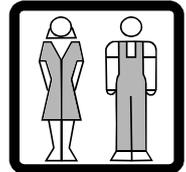

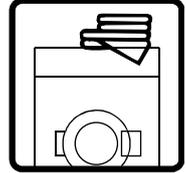

1. According to weight of dry laundry : g/kg (float ratio 1/5)
2. According to washing water: g/l

Hardness of water °dH (German)	Pre-washing		Main Wash		Single Wash	
	g/kg	g/l	g/kg	g/l	g/kg	g/l
0-5	10	2	7	1.5	10	2
6-10	15	3	10	2	15	3
11-15	20	4	15	3	20	4
16-20	25	5	20	4	25	5
>21	It is advised to use a water softening system over 11°dH					

Storage

Store it in a cool and dry place. Do not stack more than five packages on top of each other.
