

## HIGH PRESSURE MACHINE

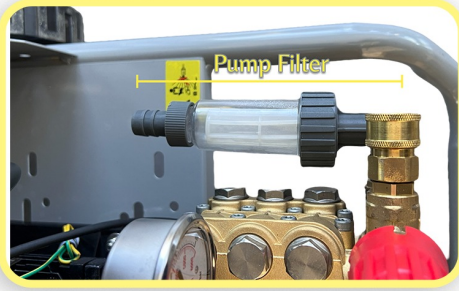

# ST140

KM

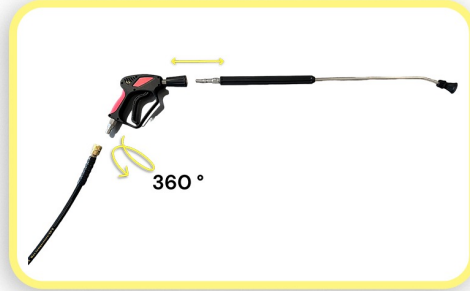

Pump Litres	12L/min - 720L/H
Maximum Pressure	140BAR/2030PSI
Pump Model	R1215
Pump Heid Material	Brass
Regulator	With
Autoswitch	Yes
Motor Power	3.4KW 220V/50HZ
Motor Speed	1450RPM
Hose / Length	10M
Filter	With
Foam Canon	With
Gun / Lance	Gun with trigger 85cm lance
Nozzle Tips	0.30
Net Weight	65 Kg
Product Size	700*450*960mm
Box Size	805*480*705mm

The pump filter protects the pump motor and other internal components from damage caused by dirt, sand, or other particles. This helps the pump last longer and reduces the likelihood of malfunctions.

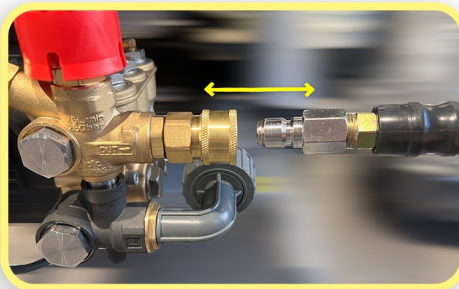

Facilitating easy assembly enhances user experience, ensuring the secure and efficient transmission of high-pressure water through accurate connections.

Manual and auto switch provides ease of use.

Foam gun easily attachable to the trigger allow users to utilize cleaning products according to their needs, providing the advantage of customizing the cleaning of various surfaces and types of dirt in a more personalized manner.

This design feature speeds up the processes and provides ease of use.

The hose is 10 meters long and durable.  
The water filter prevents dirty particles from the water source.
